

WHAT SHOULD I DO IF I'M INVOLVED IN A CAR WRECK IN ALABAMA?

CALL THE POLICE

Make sure you have an Alabama police officer respond to your accident and investigate your crash. Insurance companies carefully scrutinize **Alabama Uniform Traffic Accident Reports** when determining how much money to pay accident victims. Having an accurate accident report in many cases can eliminate any doubts insurance companies might have and could make a dramatic difference in the outcome of your case.

GET MEDICAL HELP

Even if you feel fine after your car accident, **seek medical treatment**. Go see your doctor or let an EMT examine you at the scene. Don't try to diagnose yourself. Leave your health to the experts. By seeking medical treatment, you are looking out for your health and also **sending a message to the insurance companies** that you take your injury seriously.

INTERVIEW WITNESSES

If someone saw your accident, make sure you or, if you're seriously injured, someone you trust talks to anyone who saw your motor vehicle accident. **Insurance companies highly value witness testimony**. If possible, record their comments so there's no discrepancy later about what the witness said or saw. Also make sure to **write down** the witness'

- ✓ FULL NAME
- ✓ ADDRESS
- ✓ PHONE NUMBER

in case insurance companies or police officers need to talk to witnesses later.

TAKE PHOTOGRAPHS

You've heard that a picture is worth a thousand words. Photographs of the scene of the accident can be **powerful evidence** when dealing with insurance companies and anyone else responsible for compensating you for your crash. If you're healthy enough, **take photographs of the vehicles involved** in the crash before they are moved. Make sure to take photos of **damaged areas on vehicles**. Also photograph the scene around the accident - any street signs, traffic signals, road conditions and more.

GATHER EVIDENCE

Evidence builds strong legal cases. The **more evidence** you have, the **better your ability to negotiate** after your accident. What's evidence in a car wreck? Photographs, witness testimony, your memories of the accident, police reports and more. **Draw a diagram** of the accident. Write down exactly what happened in your own words as soon as possible. **Include as much information as possible**, including weather conditions, lighting conditions and more. Every detail matters.

OBTAIN POLICE REPORT

Alabama police officers investigating car accidents **fill out an Alabama Uniform Traffic Accident Report** for every single accident. Obtain a copy of your report and **make sure all the facts listed in the report are accurate**. If you disagree with any of the information in your report, **contact our law firm immediately**. We can help you set the record straight.

CONTACT YOUR INSURANCE COMPANY

Call your insurance company and tell them you have been involved in a car accident. You may need to provide basic facts about the accident, such as contact info for others involved in the accident and the date, time and place of the accident. Don't discuss fault or give your opinion about the accident, because you may say something that could hurt your chance of getting fairly compensated. If you're not sure whether you should speak to your insurance company, contact us immediately. We can help you deal with them and stand up for your rights.

CONTACT US

Having an experienced Alabama car accident lawyer on your side can often make all the difference after your accident. At **Dean Waite & Associates, LLC of Mobile, Alabama**, we know what information to look for, what questions to ask and how to put all that information together into a strong legal case.
